

Sortimo ... Ideas for professionals

Globelyst –  
your professional  
in-vehicle equipment

**Sortimo®**

## Globelyst – makes your daily work easier

Sortimo Globelyst is our revolutionary, third generation in-vehicle equipment. Future oriented in technology and quality Sortimo, the market leader, sets the standards for today and tomorrow.

Our SpaceFrame architecture made of reinforced aluminium ensures less net weight and more stability. This means increased passive safety and a better utilisation of payload.

Would you like to know more about our totally new Sortimo system? You'll find many elements that you've always wanted to have in your commercial vehicle. These details have become a reality now.

Never before has it been that easy to adjust professional in-vehicle equipment to your individual requirements.

**This flyer will show you the versatility offered by Sortimo Globelyst.**

GLOBELYST

## Guarantee

Sortimo gives you 3 years guarantee on the Globelyst equipment when installed by one of our authorized partners.

## Crash tested

The Globelyst equipment has been crash tested successfully and offers a lot in passive safety.

## Compatible

Individual components of the system are a perfect match and compatible with each other.

## Extensible

We safeguard your investment. Your Globelyst elements can be extended exactly to your wishes when you like to at a later date.

## Lightweight

The low net weight ensures more payload capacity and lower petrol consumption in your daily operations.

## Professional

Sortimo – Ideas from professionals for professionals. All equipment elements perfectly fulfil the needs of your industry and your vehicle.

## MaxxiSpaceFrame

Based on the structure of many individual components, some Globelyst elements can be installed in DIY style.

## Eco friendly

Globelyst is made of eco friendly materials such as plastic, steel and aluminium that can be completely recycled after their service life.

# The order system for safe transportation.

## Sortimo T-BOXX

Practical plastic case with transparent lid. Therefore the contents of the inset boxes are always visible. The T-BOXX can be safely stored in the in-vehicle equipment.

## Shelves and Trays

Take advantage of every inch of space in your vehicle. Spare parts and small parts will find their place on the shelves and trays from Sortimo Globelyst.

## Sortimo L-BOXXes

Variable plastic boxes in four sizes. The L-BOXXes can be clicked together and transported comfortably as a unit.

## Sortimo M-BOXX

Large mobile box with handle. Optionally available with a lid. The M-BOXX snaps into the system and can be used as a drawer.

## Long components tray

The transportation of long objects can be done within the vehicle. The long components tray sits on top of the in-vehicle equipment and takes advantage of the entire vehicle length.

## Sortimo Accessories

Many additional products and original accessories complete the range and are a useful complement to the industry-specific in-vehicle equipment. From the cable holder to the cable hook all requirements are covered.

## Sortimo Globelyst

Sortimo in-vehicle equipment offers plenty of space for the perfect transportation and storage of small parts and cargo. The mobile product ranges such as cases and BOXXes can be safely stowed.

## Shutter and lift up flap

These parts of the in-vehicle equipment provide additional tidiness and safety in commercial vehicles.

## Case clamp

It provides for a secure grip for the tool or machine cases. The containers can be easily clamped.

## Safety floors

The basis of your success. Sortimo has several safety floors and floor inserts in the range. The Sortimo Globelyst in-vehicle equipment is placed on the safety floor.

## Cargo bars

Sortimo offers a wide range of lashing and securing facilities. The cargo bars can be variably used in the horizontal and vertical position.

## Sortimo S-BOXX

The drawer boxes come in two widths. They are ideal as a container for small parts, spare parts or screws and can be securely locked on the box floor and shelf.

## Sortimo Case

The Sortimo legend. The sturdy metal case comes in many varieties. In the in-vehicle equipment it can be fully extended and opened on the case rails.

## Drawers

The practical drawers have a lock and are stable even at full extension. With their four different widths they are perfectly integratable in the in-vehicle equipment.

## Mobile workbenches

Transform your commercial vehicle into a mobile workshop. The mobile workbenches are available as folding and extendable versions. They are all very stable and resilient.
